

## Phospho-IRAK1 (Thr209) Ab

[Images\(6\)](#)

Cat.#: AF4442                      Concn.: ~1mg/ml                      Mol.Wt.: 77kDa  
Size:                                      Source: Rabbit                          Clonality: Polyclonal

Application:                      WB 1:500-1:2000, IHC 1:50-1:200  
    \*The optimal dilutions should be determined by the end user.

Reactivity:                        Human,Mouse,Rat

Storage:                            Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. Store at -20 °C. Stable for 12 months from date of receipt.

Purification:                      The Ab is from purified rabbit serum by affinity purification via sequential chromatography on phospho-peptide and non-phospho-peptide affinity columns.

Immunogen:                        A synthesized peptide derived from human IRAK1 around the phosphorylation site of Thr209.

Uniprot:                            P51617

AF4442 at 1/100 staining Rat stomach tissue by IHC-P. The sample was formaldehyde fixed and a heat mediated antigen retrieval step in citrate buffer was performed. The sample was then blocked and incubated with the primary Ab at 4°C overnight. An HRP conjugated anti-Rabbit Ab was used as the secondary Ab.

**IMPORTANT:** For western blot, incubate membrane with diluted primary Ab in 5% w/v milk , 1X TBS, 0.1% Tween@20 at 4°C with gentle shaking, overnight.
